Who we are

Crazy Webs is a website development and branding agency with a team of technical freaks with expertise knowledge in web development and creative graphic designing. We started our company in 2010 and worked with many organizations to take them online stylishly and created a valuable brand for our beloved clients.

What we do

Our branding agency has 10+ years of experience in web designing, logo designing, and software development and with versatile thinking, we have developed ourselves to meet international standards in creating next-generation website and brands with up-to-date technology.

Our Mission

USA, China and all developed nations always stays one level ahead in all aspects like money value, business, exports, military etc. This is because they have hi-end technology with them. One robot does the work of 100 men. One of the biggest need of INDIA compared to other developed nations is we are in the urge of technology and design up gradation. So we have set our mission to give the latest up-to-date and state-of-the art technology to all our clients at a reasonable price.

Our Vision

Creating high class websites and brands for our clients and making them easy to compete with other international business people by learning day-to-day technologies and using creativity in design and development with our 10+ years experience.

Our Inspirations

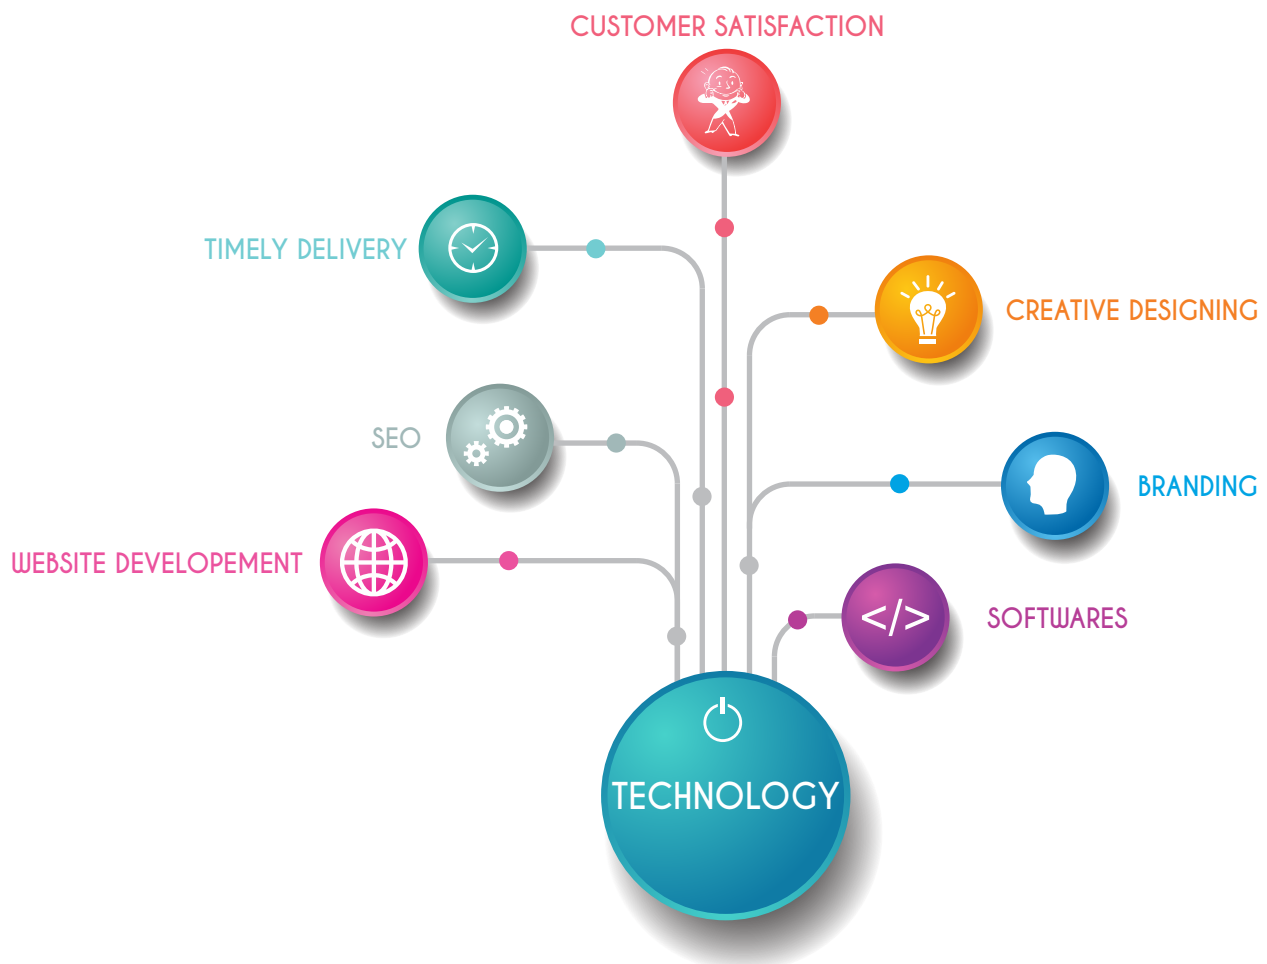

You of the West are practical in business, practical in great inventions, but we of the East are practical in religion. You make commerce your business; we make religion our business.

- Swami Vivekananda

A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption of our work. He is the purpose of it. He is not an outsider of our business. He is part of it. We are not doing him a favour by serving him. He is doing us a favour by giving us the opportunity to do so.

- Mahatma Gandhi
